

Symposium and USCAP Companion Meeting Topic Selection

Executive Committee Task Force

2024

Society for Pediatric Pathology

Introduction

The decision to move from two annual meetings of the SPP, one in the spring and one in the fall, to USCAP Companion Society status with USCAP Companion Society Meeting in the spring and one annual fall meeting necessitates a procedure for companion society topic selection and a shift in how topics are selected for the fall pediatric and perinatal symposia.

The purpose of this task force is to delineate a process for USCAP Companion Society Meeting topic selection and SPP Fall Meeting pediatric and perinatal topic selection.

Structure

The task force will consist of 1 chair drawn from the SPP Executive Committee and up to 8 additional SPP members representing different career stages. The chair will be responsible for organizing materials and meetings and reporting task force results. The members will be responsible for providing input. Business will be conducted by email and at last one meeting to discuss and finalize the plans. The task force will report their recommendations to the SPP President prior to the Spring 2024 meeting.
