

Farber-Landing Lecture

Inaugurated in 1980 as the Sidney Farber Lecture, and renamed in 2002 as the Farber-Landing Lecture, this lecture is a tribute to two of the Society for Pediatric Pathology's Founders, and is a highlight of the annual meeting. The lecture honors an individual who has made outstanding contributions to the understanding of diseases of children and pediatric pathology, or to child health advocacy. The Farber-Landing Lecturer is chosen by the Society's president, in consultation with the Executive Committee, and is approved by the Executive Committee and Education Committee chairperson. Lecture topics are not necessarily scientific, but may also address historical perspectives, ethical, societal or political issues, and systems-based practice. The lecture is intended to help attendees to relate aspects of their practice to the broader contexts of recent advances in medical sciences or to child health within their respective communities and the world at large.

A list of previous lectures follows:

Year	Name	Title
Sidney Farber Lectures		
1980	Robert J Lukes	Functional Approach to Non-Hodgkins Lymphoma and Related Leukemia
1981	Josef Warkany	Prevention of Congenital Malformations
1982	Jay Bernstein	Developmental Pathology of the Kidney
1983	Robert W Miller	The Origins of Cancer in Childhood or Before
1984	Benjamin Landing	Tubulo-Interstitial and Medullary Cystic Diseases of Children – Current Concepts
1985	Robert P Bolande	Creative Ideation and Inquiry in Developmental Pathology
1986	Charles R Scriver	Genetic Syndromes (title lost to the ravages of history)
1987	John M Opitz	The Future of Developmental Pathology
1988	Fred Rosen	The Pathogenesis of Angioedema
1989	Kurt Benirschke	Biology of Twinning

1990	Harvey S Rosenberg	Pediatric Pathology in the Time of AIDS
1991	Louise C Strong	Genetics in Childhood Cancer: Windows Along the Carcinogenic Pathway
1992	Jorge Yunis	Genes and Chromosomes in Medicine
1992	Charles J Scher	Growth Factor Regulated Cell Cycle Progression
1994	Daniel Callahan	Health Care Rationing and the Goals of Medicine
1995	Dagmar Kalousek	The Fetus and its Placenta: Do They Talk to Each Other
1996	Lynne Reid	Building A Lung: Frontiers on the Information Highway
1997	Lucy B Rorke	Virchow's Great, Great Granddaughter
1998	David Hardwick	Directing and Managing in a Professional System
1999	Bruce Beckwith	Life in the Gray Zone: Dealing with Uncertainty in Diagnostic Pathology
2000	Frank Gonzalez-Crussi	Idle Thoughts on Human Generation
2001	Louis P Dehner	Some Reflections on Solid Tumors in Children

Farber-Landing Lectures

2002	Ronald O C Kuschula	Paediatric Pathology in Africa: Current and Future Potentials
2003	Milton Finegold	To the Future and Back: Molecules and Microscopy
2004	Brian O'Connell	The Socioeconomic Aspect of AIDS in Children in Africa
2005	Jem Berry	Paediatric Pathology in the Public Eye
2006	James Dimmick	Pediatric Liver Pathology – A Perspective
2007	Henry Krous	SIDS and SUDC: A Personal Odyssey
2008	Claire Langston	Pediatric Pulmonary Pathology – How I Learned to Love the Lung

2009	Richard van Praagh	Pediatric Pathology: The Clinician's Open Sesame
2010	Ronald Jaffe	Hitch a Ride on the Histiocyte
2011	Kurt Benirschke	The Different Outcomes in the Monozygotic Twinning Process
2012	John J Buchino	The Good, the Bad, and the Ugly
2013	Peter C Burger	Medulloblastomas – Past and Present
2014	Kevin E Bove	Infant Cholestasis: 50 Years of Progress and Frustration
2015	Don B Singer	Little Babies, Big Babies, and the Pancreatic Beta Cell
2016	Louis P Dehner	Pleuropulmonary Blastoma
2017	Cheryl M Coffin	Gardner Fibroma: A Diagnosis at the Confluence of Perception, Reason and Intuition
2018	Eliezer Masliah	The Spectrum of Neurodevelopmental and Neurodegenerative Disorders: Lessons from Down Syndrome and Gaucher Disease
2019	Elizabeth Perlman	The Developmental Origins of Wilms Tumor
2020	David Parham	Rhabdomyosarcoma: From Obscurity to Clarity in Diagnosis, but with Ongoing Challenges in Management
