**Spring 2009- Boston, MA**

**SYMPOSIUM: Disorders of Intersex**

**WORKSHOPS:**

- Pediatric Transplantation Pathology
- The Use of Tandem Mass Spectrometry in Metabolic Diagnosis and General Pediatric Clinical Chemistry Laboratories
- Update in Pediatric Lymphomas, Leukemias and Bone Marrow Failure Syndrome
- Non-Tumoral Testicular Pathology in Children
- Update on Bone Pathology in Pediatrics
- Pediatric Renal Tumors Update

**Fall 2009- SPP/PPS Combined Meeting- Philadelphia**

**John Emery Lecture-** Is Genetics Inhumane?  
Professor Arnold Munnich, M.D., Ph.D.  
Hospital Necker-Enfants Malades and University Paris-Descartes  
Paris, France

**SYMPOSIUM: Recent Advances In Pediatric Soft Tissue Tumors**

- Recent Advances in the Molecular Pathology of Alveolar Rhabdomyosarcoma
- Immune Environment & Pediatric Soft Tissue Tumors
- Spindle Cell Tumors of Infancy and Childhood: Contribution of Molecular Techniques and Markers to the Diagnosis and Patient Management
- What Does (or Should) Your Oncologist Want to Know?

**Spring 2010- Washington, D.C.**

**SYMPOSIUM: Recent Advances in Medical Renal Diseases**
WORKSHOPS:

- Pediatric Thymus Pathology
- Pediatric Apheresis with the Inclusions of Technical Aspects Thereof, Indications for, and Blood Bank Support Thereof
- Pediatric Transplantation Pathology
- Molecular Biology - An Introduction to the Conventional and New Diagnostic Tests
- Non-tumoral Testicular Pathology in Children
- Update on Bone Pathology in Pediatrics

Fall 2010- Banff, Alberta, Canada

SHARED SESSION
BANFF PATHOLOGY COURSE and SOCIETY FOR PEDIATRIC PATHOLOGY SYMPOSIUM

- 2008 WHO Classification of Lymphomas. An Overview
- Hodgkin Lymphoma and Differential Diagnosis
- Pediatric Non-Hodgkin Lymphoma. Recent advances and new entities
- EBV Associated Lymphoproliferative Disorders: Update and Clinical Significance of New Entities
- Reactive lymphoproliferative lesions in children
- The Spectrum of Histiocytic Processes in Childhood
SPRING 2011- SAN ANTONIO, TX

SYMPOSIUM: Hemophagocytic Lymphohistiocytosis

WORKSHOPS:

- Peripheral Neuroblastic Tumors in Children: An Update
- Pediatric Thymus Pathology
- Pediatric Transplantation Pathology
- Pediatric Neuropathology Update
- Molecular biology – An Introduction to the Conventional and New Diagnostic Tests
- Non-Tumoral Testicular Pathology in Children

FALL 2011- MILWAUKEE, WI

SYMPOSIUM: Vascular Tumors and Malformations

PERINATAL SYMPOSIUM: Beyond the Laundry List – Diverse Perspectives on Nonimmune Fetal Hydrops

Spring 2012- Vancouver, Canada

SYMPOSIUM: Hirschsprung Disease

WORKSHOPS:

- Selected Rare Tumors in the Pediatric Population
- Pediatric Neuropathology Update
- Molecular Biology – An Introduction to the Conventional and New Diagnostic Tests
Gestational Trophoblastic Disease

Peripheral Neuroblastic Tumors in Children: An Update

Pediatric Thymus Pathology

**Fall 2012 – Houston, TX**

PERINATAL SYMPOSIUM: Genetic Metabolic Disease in the Fetus and Neonate

**Spring 2013- Baltimore, Maryland**

JOINT SYMPOSIUM WITH AMERICAN SOCIETY OF DERMATOPATHOLOGY
(Companion Society)

**WORKSHOPS:**

- Disorders of Histiocytes
- Selected Rare Tumors in the Pediatric Population
- Pediatric Neuropathology Update
- The Frozen Section: Diagnosis and Pitfalls
- Gestational Trophoblastic Disease-Update in Getting the Diagnosis, with Clinicopathologic Correlations
- Peripheral Neuroblastic Tumors in Children: An Update

**FALL 2013- SALT LAKE CITY, UTAH**

Clinical Pathology Symposium, Part 1

- Challenges to Pediatric Clinical Pathology Under Healthcare Reform
➤ Waiting for the Next Shoe to Drop: Healthcare Reform and Academic Pediatrics

**Clinical Pathology Symposium, Part 2**

➤ A Payers Perspective on Genetic Testing Utilization

➤ Next Generation Sequencing as a Clinical Test: What is Right for Our Patients?

**Surgical Pathology Symposium Part 1**

➤ Chronic Inflammatory and Premalignant Conditions of the Pediatric Colon

➤ Inflammatory Bowel Disease: Children on a Fast Track to Cancer

➤ Genetics of Crohn Disease: New Insights into Pathogenesis

**Surgical Pathology Symposium Part 2**

➤ Chronic Inflammatory Conditions of the Pediatric Colon

➤ Reading the Genetic Tea Leaves: Understanding Who Gets Colon Cancer and Why

**Perinatal Symposium Part 1**

➤ Developmental Genetics of Congenital Anomalies

➤ Gene Targeting

➤ Evolution and Development

**Perinatal Symposium Part 2**

➤ The Epidemiology of Human Congenital Malformations: Approaches to the Study of Cause

➤ Prenatal Imaging and the Autopsy: Working Together for Accurate Diagnoses

**SPRING 2014- SAN DIEGO, CALIFORNIA**

**SYMPOSIUM: Pediatric Dermatology: Focus On Cutaneous Inflammatory Disorders**
WORKSHOPS:

- The Cytopathology of Pediatric Non-Thyroidal Head and Neck Masses with Histologic Correlates
- Disorders of Histiocytes
- Selected Rare Tumors in the Pediatric Population
- Updates in Pediatric Hematopathology
- The Frozen Section: Diagnosis and Pitfalls
- Gestational Trophoblastic Disease

FALL 2014- BIRMINGHAM, UK

SYMPOSIUM: Pediatric Neuropathology

PERINATAL SYMPOSIUM: Skeletal Dysplasia

SPRING 2015- BOSTON, MASSACHUSETTS

SYMPOSIUM: Advances in Non-Rhabdomyosarcoma Soft Tissue Sarcomas in the Young: New Entities and Revised Concepts

WORKSHOPS:

- Pediatric Lung Biopsy: A Pattern-Based Diagnostic Approach and Update on Pathogenesis.
- Disorders of Histiocytes
- The Frozen Section: Diagnosis and Pitfalls
- The Cytopathology of Pediatric Non-Thyroidal Head and Neck Masses with Histologic Correlations
- Pediatric Hematopathology
Pediatric Peripheral Nerve Sheath Tumors: Pathology and Associated Syndromes

FALL 2015 – TORONTO, CANADA

SYMPOSIUM: Cystic Fibrosis

PERINATAL SYMPOSIUM: The Pathology of Arthrogryposis Multiplex

SPRING 2016 – SEATTLE, WASHINGTON

SYMPOSIUM: Neonatal and Infantile Cholestatic Liver Disease

WORKSHOPS:

- The Cytopathology of Pediatric Non-Thyroidal Head and Neck Masses with Histologic Correlations
- Pediatric Lung Biopsy: A Pattern-Based Diagnostic Approach and Update on Pathogenesis
- Pediatric Kidney Biopsy Interpretation: Essentials for the Pathologist-on-Call
- Pediatric Hematopathology
- Pediatric Peripheral Nerve Sheath Tumors: Pathology and Associated Syndromes
- Adding Relevance to the Pediatric Autopsy with Defined Pre-autopsy Goals and Practical Techniques

FALL 2016 – HONOLULU, HAWAII

SYMPOSIUM: Current Concepts in Tropical Medicine
PERINATAL SYMPOSIUM: Obesity in Pregnancy

SPRING 2017- SAN ANTONIO, TEXAS

SYMPOSIUM: Personalized Medicine in the Practice of Pediatric Tumor Pathology

WORKSHOPS:

- Pediatric Lung Biopsy: A Pattern-Based Diagnostic Approach & Update on Pathogenesis
- Pediatric Kidney Biopsy Interpretation: Essentials for the Pathologist-on-Call
- Challenges in Pediatric Soft Tissue Pathology: A Case-Based Approach to Selected Difficult Cases
- Pediatric Peripheral Nerve Sheath Tumors: Pathology and Associated Syndromes
- Adding Relevance to the Pediatric Autopsy With Defined Pre-autopsy Goals and Practical Techniques
- Pediatric Gastrointestinal Biopsy: An Update on the Diagnosis and Pathogenesis of Pediatric Upper Gastrointestinal Disease

FALL 2017 – DENVER, COLORADO

CLINICAL PATHOLOGY SYMPOSIUM: Personalized Medicine in the Clinical Pathology Laboratory

SYMPOSIUM: Down Syndrome in the Twenty First Century

PERINATAL SYMPOSIUM: Noninvasive Prenatal Diagnosis and Treatment

SPRING 2018- VANCOUVER, CANADA
SYMPOSIUM: Pediatric Malignant Liver Tumors: New Advances in Pathologic Classification, Molecular Diagnostics and International Cooperative Trials

WORKSHOPS:

- Pediatric Gastrointestinal Biopsy: An Update on the Diagnosis and Pathogenesis of Pediatric Upper Gastrointestinal Disease
- Adding Relevance to the Pediatric Autopsy With Defined Pre-autopsy Goals and Practical Techniques
- Bone dysplasias: A systematic diagnostic approach.
- Challenges in Pediatric Soft Tissue Pathology: A Case-Based Approach to Selected Difficult Cases
- Pediatric Kidney Biopsy Interpretation: Essentials for the Pathologist-on-Call
- WHO Classification of Tumors of the Central Nervous System

FALL 2018 – ANN ARBOR, MICHIGAN

SYMPOSIUM: Quality, Patient Safety and Value Creation from a Pathology Platform

PERINATAL SYMPOSIUM: Updates on Congenital Malformations

SPRING 2019 – NATIONAL HARBOR, MARYLAND

SYMPOSIUM: Lymph Node Pathology for the Practicing Pediatric Pathologist

WORKSHOPS:

- WHO Classification of Tumors of the Central Nervous System
- What Can the Placenta Tell Us?
Challenges in Pediatric Soft Tissue Pathology: A Case-Based Approach to Selected Difficult Cases

Bone dysplasias: A systematic diagnostic approach.

The Role of heuristics and bias in patient safety: preventing errors in pathology

Pediatric Gastrointestinal Biopsy: An Update on the Diagnosis and Pathogenesis of Pediatric Upper Gastrointestinal Disease

FALL 2019 – PITTSBURG, PENNSYLVANIA

SPP ↔ PPS Combined Meeting

SYMPOSIUM: Symposium on Heart Disease

SPRING 2020 –

SYMPOSIUM: TBD

WORKSHOPS:

- Hirschsprung Disease: Diagnostic, Intra-operative, and Post-operative Pathology
- Discovering Cancer Predisposition in Children
- The Role of heuristics and bias in patient safety: preventing errors in pathology
- Bone dysplasias: A systematic diagnostic approach.
- What Can the Placenta Tell Us?
- WHO Classification of Tumors of the Central Nervous System
